The new Scrubmaster NB100
Hard Floor Cleaning Expert – Efficient
Labor-Saving, Eco-Friendly!

Let cleaning be done in one step!

Noblelift is committed to driving continuous innovation in cleaning technology, delivering efficient and sustainable solutions that help create safer, healthier, and cleaner environments

Always by Your Side

Noblelift offers a highly experienced direct service team and a global distribution network, ensuring fast access to professional support wherever you are. From equipment selection to after-sales service, we deliver reliable and efficient support every step of the way.

Targeted Cleaning Solutions Built for Your Environment

No matter the cleaning challenge, Noblelift delivers efficient and reliable end-to-end solutions—covering everything from equipment to service, tailored to your operations and environment.

Service

Noblelift offers full-lifecycle support for the NB100 scrubber, ensuring long-term performance, extended lifespan, and maximum return on investment.

Flexible Purchase and Rental Options

Whether you're looking for short-term rentals, long-term purchases, or customized services, Noblelift offers flexible and efficient cleaning solutions tailored to your site requirements, budget, and operational needs.

High-Efficiency Cleaning for Compact Spaces

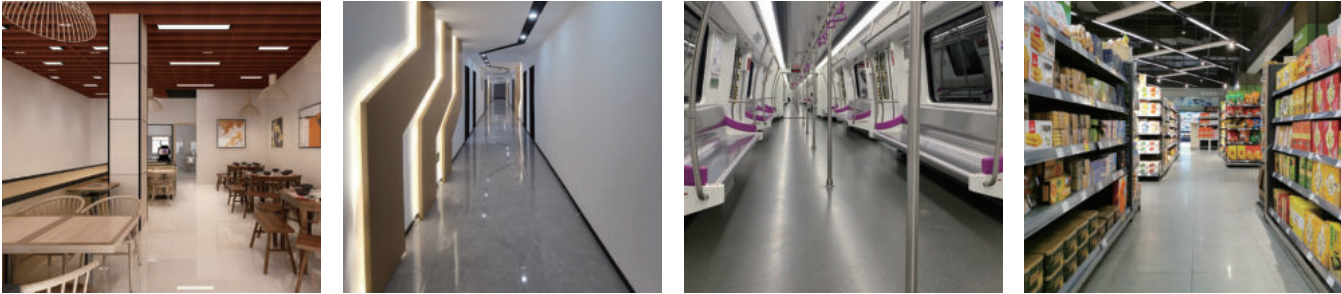

- ▶ In high-traffic commercial areas, floor cleanliness plays a critical role in customer experience and buying decisions. The NB100 intelligent cleaning system is purpose-built for small spaces, delivering three key advantages:
 - 1. Deep Cleaning Power – Dual brushes remove tough stains and keep floors spotless.
 - 2. Enhanced Safety – Smart water control minimizes slip risks.
 - 3. Visual Appeal – Quickly restores floor shine and enhances the space's overall quality.

With industrial-grade cleaning performance, we help commercial spaces turn “invisible services” into visible value—making every cleaning task an opportunity to improve customer satisfaction.

NB100 Cleaning Challenges:

- ▶ In high-traffic commercial spaces like convenience stores, fast food restaurants, small shops, and restrooms, cleaning is challenging due to limited workspace. With its compact, flexible design, the NB100 easily navigates between shelves, tables, and sinks, providing deep, efficient cleaning while minimizing disruption to customers and daily operations. It's the perfect cleaning solution for small commercial spaces.
- ▶ Powered by the high-performance NB100 scrubber, Noblelift's intelligent cleaning solution significantly boosts cleaning efficiency, delivering top-quality results in less time. Its industrial-grade design reduces equipment downtime and maintenance, ensuring continuous and efficient operation.
- ▶ With its compact body and powerful cleaning ability, the NB100 works efficiently in tight spaces without disrupting normal business activities, making it an ideal choice for limited-space environments.
- ▶ In high-traffic areas like shopping malls, stations, and restaurants, traditional cleaning methods often require blocking off sections, disrupting operations and reducing revenue. The NB100, however, cleans quickly and deeply amidst foot traffic, achieving "zero-disruption cleaning" and maximizing operational efficiency.
- ▶ Wet floors create significant slip hazards, but the NB100's "high-efficiency cleaning + low water usage" technology reduces excess moisture, allowing floors to dry quickly and return to safe, passable conditions, lowering accident risks in public spaces.
- ▶ A clean, dry, and safe environment is a basic requirement for customers in commercial spaces. The Noblelift NB100 provides a comprehensive "deep cleaning + quick drying" solution that not only meets high hygiene standards but also eliminates slip risks with its "instant dry" feature, creating a safe and fresh environment that enhances customer satisfaction and improves the overall image of your space.

The integrated waterproof touch panel offers intuitive and easy operation.

The foldable handle design saves space, making transportation and storage more convenient.

The foldable handle design saves space, making transportation and storage more convenient.

The integrated aluminum die-cast chassis and water suction system are durable, rust-resistant, and offer excellent water suction performance.

NB100 Features and Advantages:

The NB100 is a highly efficient, eco-friendly industrial-grade scrubber designed for deep cleaning of hard floors. With its compact structure and dual scrub brushes operating in reverse rotation, it effectively removes stains while reducing manual labor and significantly cutting down water and detergent usage. It is compatible with all water-based detergents, making it suitable for various user needs.

- ▶ The NB100 mini scrubber is compact in size, making it ideal for cleaning narrow spaces.
- ▶ Equipped with brushless scrub brushes and a suction motor, it offers low noise, high efficiency , energy savings, long lifespan, and low maintenance costs.
- ▶ Large-capacity clean water tank (4L) and waste water tank (6L), with three adjustable water flow and brush speed settings, offering flexibility for various cleaning tasks.
- ▶ The new low-energy consumption control system is compatible with a 36V 12AH lithium battery, providing over 1.5 hours of continuous operation on a single charge.
- ▶ The integrated aluminum die-cast chassis and water suction system are durable, rust-resistant, and offer excellent water suction performance.
- ▶ Magnetic brush disc connection design with quick and easy disc installation and removal.
- ▶ Tool-free removal design for the water scraper blade, making the replacement process simple.
- ▶ The separated clean and waste water tank design makes cleaning and maintenance more convenient.
- ▶ The foldable handle design saves space, making transportation and storage more convenient.

NB100 Walk-behind Scrubber--Specifications

Manufacturer`s type designation			NB 100
Parameter Table	Drive		Battery
	Operator type		Hand push
	Net weight (Without battery)	kg	18.5
	Brush/ Pad diameter	Øx w (mm)	212*2
	Overall length	L(mm)	1155
	Overall width	W(mm)	450
	Squeegee width	W1(mm)	452
	Overall height	H (mm)	452
	Detergent Tank Capacity	L	4
	Recovery Tank Capacity	L	6
	Cleaning path	mm	450
	Brush speed	Rpm	350
	Brush pressure	kg	6
	Continuous working time	mins	80~90
	Brush motor rated power	W	120
	Vacuum Motor Power	W	150
	Vacuum capacity	kPa	>10
	Battery voltage, nominal capacity	V/Ah	36/12
	Battery weight (+/-5%)	kg	2.8
	Battery size (L x W x H) (mm)	mm	345x100x75
